Thoracentesis	3	5	10	15
Lumbar puncture	3	5	10	15
eFAST/POCUS	5	10	15	20

Note:

1. This table can be added to CCC results for residents to follow on their procedure performance. To graduate, each resident should meet the **Competent level** for each procedure listed.
2. For Proficient level, at least 1 performance needs to be supervised by core faculty.
3. Within our program, some procedures are rotation-specific and may be a little difficult to achieve. However, with active participation, all residents should achieve the required number within the training duration.
